*all programs will take place in Google Meets

| Program Name: | Program Description: |
|---|---|
| Summer Brain Gain (Ages 6-12) | Summer Brain Gain is a virtual program that helps combat summer learning loss through fun and educational activities. Children are encouraged to use their imaginations as they explore different themes each week. |
| Art in the Summer (Ages 6-12) | Art in the Summer explores various art techniques and provides the opportunity to create your own unique artwork. Come and hang out virtually in a relaxing, fun, and welcoming space that allows for creativity and imagination! |
| Adventure Week (Ages 6-12) | Join us for some super hero themed virtual afternoons where we play games, make arts & crafts, and exercise our brains and bodies! Get to know other Virtual Club Members and Staff through a wide range of interactive activities that come with lots and lots of laughs! |
| Kid Tech Nation (Ages 6-12) | Kid Tech Nation is a virtual program that teaches children and youth digital skills, coding concepts, internet safety, and computational thinking. The program also focuses on engaging young people that are typically underrepresented in STEM fields: girls, racialized and Indigenous children, and children from newcomer families. |
| Youth Employment (Ages 13+) | This program helps participants develop interview skills, professionalism in the workplace and assists youth in building competitive resumes. |
| Dungeons & Dragons Club (Ages 13+) | Youth are invited to join an afternoon of table top, role-playing games. Staff will lead a campaign of Dungeons of Dragons, guiding youth as they conjure an adventure of problem-solving, teamwork and creative thinking. |
| How to Adult (Ages 13+) | Practice and develop skills that will help you through a life time. In How To Adult, you may learn new skills that you may not learn at school! For example, learn about banks, budget, loans, or learn about post-secondary. |
| Youth Space/ Road Code (Ages 13+) | This is a driver's education program that prepares young learners through a mixture of virtual learning and hands-on experience. Youth focus on road safety, traffic laws and safe driving technique. Drivers will receive a certificate of completion and will learn from a UPS driver about the importance of being a safe driver. Each week, youth have an opportunity to work with a driving simulator for an immersive opportunity to hone their skills. |
| Youth Space (ages 13+) | Youth Space is an opportunity for youth to explore and embrace the diverse contexts of being a young person in today's society. Youth can expect to be welcome to a safe environment to play games, explore topics of youth's interest, and develop positive peer and mentoring relationships. |

*ELL support is available for all programs.
